HINTS ON THE USE OF THE SERBO-CROATIAN DIALOGUE CARTOON GUIDE

A difficult part in memorizing any conversation is remembering what comes next after each speech. These Dialogue Cartoon Guides have been prepared to help you remember what comes next in the dialogues.

Each Cartoon Guide contains all the clues necessary to enable you to follow the proper sequence of a dialogue. As you study the dialogue keep referring more to the Cartoon Guide and less to the text of the dialogue until finally you need only look at the Cartoon Guide to recite the entire dialogue.

Use the Guide in class, too, while studying the dialogue. Your best classroom procedure will often be to practice taking parts in the dialogues while looking only at the Cartoon Guides. Remember that some of your oral examinations may very well make use of the Guides in the following two ways:

(1) by showing you two or three cartoons from one Guide and asking you to put them into language, and

(2) by showing you three or four cartoons that have something in common but are taken from <u>different</u> dialogues, asking you to put them into appropriate language.

Though the Cartoon Guides are not a Rube Goldberg invention for the painless injection of a foreign language, you will find them helpful if you practice using them properly.
